THINK ACT & SAVE LIFE

Mr. Vishal Jayadeva Belgodu 31 years, son of a senior member of ICAI, is a software engineer working for Oracle at USA, undergoing treatment for Acute Myeloid Leukemia (Blood Cancer) for the last 3 months at the Stanford Hospital USA. He is in urgent need of Blood Stem Cell Transplant for his survival. Suitable matching blood stem cell donor has not been identified. DATRI a US based social organization having branches in India is helping to find a HLA matching donor of Indian Origin. Stem Cell donation is a simple and safe procedure. Persons between the age group of 18 & 50 can be a Blood Stem Cell Donor. Primarily SWAB Sample is a pre-requirement so as to match the donor and patient HLA. It is a simple procedure can be done online or in person. Sampling Kit is readily available with the father of patient, can be sent by courier.

Please visit www.datriworld.org for any information. Please visit Facebook page "Marrow for Vishal" [https://www.facebook.com/ MarrowforVishal/](https://www.facebook.com/MarrowforVishal/) to know more about the subject / cause.

Request is being made by the member for circulation of this urgent and important message among the members and their staff / articles who can come forward to help save a life. In case you wish to contact personally by email ID: JDEV.BR@GMAIL.COM and mob: 09742506151.
